

Saul R. Korey Award in Translational Medicine Recipients

The Saul R. Korey Award honors Einstein faculty for excellence in translational research. Named after Dr. Saul Korey, a distinguished neuroscientist and laboratory investigator whose legacy includes improving awareness of neurological disabilities and spearheading research at Einstein on a variety of neurodegenerative diseases, the award recognizes faculty who demonstrate exceptional contributions to translational medicine. Past recipients are listed below.

2025	Julio A. Aguirre-Ghiso, Ph.D.
2024	Amit K. Verma, M.D.
2023	Kartik Chandran, Ph.D.
2022	Nikolaos Frangogiannis, M.D.
