

Albert Einstein College of Medicine

## **Marshall H. Horowitz Prize for Research Excellence**

The Marshall S. Horowitz Prize for Research Excellence honors research faculty at Albert Einstein College of Medicine who conduct groundbreaking research in the basic sciences. Named after Dr. Marshall Horowitz, an internationally renowned physician-scientist who discovered how genes encoded by adenovirus caused disease and then converted those disease-causing genes into therapeutic tools for diabetes, the award recognizes faculty who demonstrate exceptional research scholarship. Dr. Horowitz was one of the founding faculty of Einstein's M.D./Ph.D. program and served as the former chair of Montefiore Einstein's Department of Microbiology and Immunology. Past recipients are listed below.

2025	Ulrich Steidl
2019	Margaret Kielian
2018	Carl Schildkraut
2017	John S. Blanchard
2016	Scott Emmons
2015	John Condeelis
2014	Pamela Stanley
2013	William R. Jacobs, Jr.
2012	Anna Marie Cuervo
2011	Robert Singer
2010	Arturo Casadevall
2009	Nancy Carrasco
2008	Stanley Nathenson
2007	Matthew Scharff
